

Security Assessment Service: PCI Compliance Readiness Programs

Overview

In today's ever-changing threat landscape, securing cardholder data and complying with the PCI Data Security requirements can be challenging for even the most seasoned of IT professionals. Plus, the consequences of a data breach are substantial and can destroy your business. Non-compliant merchants and payment processors may face fines from multiple card associations, in addition to costly forensic investigations, loss of customers, root cause determination, and irreversible brand damage.

As an experienced security services company, PathMaker Group's PCI Compliance Programs can help you minimize IT security risks and maintain compliance with any credit card association that recognizes the Payment Card Industry (PCI) Data Security Standard including Visa, MasterCard, American Express and Discover.

PCI Compliance Programs

PathMaker Group offers a series of PCI Compliance services to help Level 1-4 Merchants, Service Providers, Third-Party Providers, Data Storage Entities, Point-of-Sale Providers and Acquiring Institutions meet the various requirements set forth in the PCI DSS.

- **On-Site Assessment** - For Level 1 Merchants and Level 1-2 Service Providers, PathMaker Group provides the On-site Assessment services that companies need to achieve and maintain on-going PCI compliance.
- **PCI Compliance Roadmap** – PathMaker Group senior security consultants can help develop your compliance roadmap from assisting you with your PCI Self-Assessment Questionnaire through developing and implementing your fully prioritized, PCI Compliance Roadmap.
- **Remediation** - PathMaker Group's depth of experience paired with its comprehensive remediation services help companies effectively implement risk reduction programs.
- **Vulnerability Scans** - PathMaker Group's fully automated vulnerability scanning services provide Merchants and Service Providers with a simple, cost-effective way to identify and remediate system and application vulnerabilities as mandated by PCI DSS.
- **Penetration Testing** - PathMaker Group's network and application layer penetration testing service helps companies comply with PCI DSS which mandates at least annual penetration tests on systems and applications.

PCI Compliance On-Demand, Security as a Service

PathMaker Group offers On-Demand Security Services that economically solves all of the DSS requirements for Log Management, Vulnerability Scanning, and Monitoring Networks (24x6x365). These are required by PCI DSS and we'll manage it for you as a simple monthly subscription service. No hardware or software purchase required.

PathMaker Group's knowledge of the PCI standard and ability to evaluate and assess security requirements based on PCI criteria empowers our clients to achieve and maintain compliance validation. On-Demand. On-Schedule. On-Budget.
